

WHAT IS DRUPAL ON THE BAYOU?

NEW ORLEANS, LA - DECEMBER 8 & 9, 2011

We will bring the most devoted Drupal lovers, including developers and website designers together with business owners, corporate and enterprise individuals for two days of informative and interactive workshops, sessions and panels from some of the most influential people in the Drupal Community, Usability, (UX), Agile Methodology and Social Media. (Keynote speakers to be announced soon.)

- **BUILD:** Drupal experts will conduct sessions and educational workshops on theming and site building and much more to satisfy the even the most savvy web developer.
- **DESIGN:** Websites are more than themes and code. They need to be well designed and user friendly, so we are bringing special guest speakers to give website designers the 411 on design, usability and the Agile Method.
- **BUSINESS:** What good is a website if it doesn't improve your business? That is why we will have interactive panels and session focused on Drupal's application in the corporate world, as well as experts who will guide you through the murky and ever-changing world of social media. One of the highlights will be a case study track of how businesses use Drupal and why they chose them over other CMS systems.
